Words of Comfort, Prayers for the People

From the National Council of Churches

February 25, 2021

<https://www.youtube.com/watch?v=LqDxc15uOQU>

“For those who have died and their loved ones

For stillness and silence

For lamenting the season

For those who are sick

For those suffering around the world house

For first responders and essential workers

For those struggling with economic loss

For comfort

For communities of faith searching for wholeness

For successful and equitable vaccine distribution

For words of hope”
